Define the problem statement
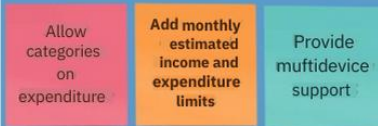

What problem are you tsyiiie te solve? Frame your problem as a How Might We statement. This will be the focus of your braiutarm.

PROBLEMS

Many businesses use their own method to keep track of their income and spending because they believe this to be the most important factor in how well their operations are doing, tt is a good practice to keep track of daiiy spending, and tracking them over the course of a month is crucial since it gives insight Into how money is spent and aids in creating a better budget for the days ahead. Because of this, monitoring and tracking personal spending has never been easier.

## Brainstorm

Mohan raj B

- Allow categories on expenditure
- **Add monthly estimated income and expenditure limits**
- Provide muftidevice support

Rajesh S

- Multiple Login Methods
- Light Weight Web App
- Colorful Visual Graphs

Narendran S

- Good UI/UX
- Allow Dark Mode
- Maintain Past History

Santhosh M

- IBM Database
- Send Push Notifcation
- Implement ML algorithm to estimate the monthly spending

GRO! JP IDEAS

- Attractive Dashboard
- **User hit**erface
- Light and Dark mode
- Friendly Animat ion and Design
- All transaction and informatic transfer must be encrypted
- **Security**r
- Hosting and deploying the application on the IBM Cloud
- Login using their personal account's
- Adding the expense details
- Personal Expense Tracker
- Adding the Income details
- Alerting the person if expense is exceed

Prioritize

IMPORTANCE

FEASIBILITY

- Good UI/UX
- Colorful Visual Graphs
- Send Push Notification
- Store personal information
- Add monthly estimated income and expenditure limits
- Allow categories on expenditure
- Fake Currency for childrens to learn with
- Gamified reward system
- Build Desktop Widgets for App
- Provide multidevice support
- Multiple Login Methods
- Implement ML algorithm to estimate the monthly spending
- Maintain Past History
- Export the stats as CSV
- MongoDB IblcSCHB h... used
- Allow Dark Moue
